PROFESSIONAL SUMMARY

Data Science & AI undergraduate (SUPSI, graduating Sept. 2026) with hands-on experience in SQL database analysis, Python data manipulation, and IT infrastructure. Actively developing data visualization capabilities with Tableau, Python and Flourish. Eager to leverage technical problem-solving skills to contribute to innovative data analytics and machine learning applications.

EXPERIENCE

Thesis Researcher & Data Annotator

May 2026 – Sep. 2026

MeDiTech (SUPSI) in collaboration with EOC

Lugano & Bellinzona, Switzerland

- Analyzing video feeds and IoT sensor data from smart toys to evaluate ADOS (Autism Diagnostic Observation Schedule) levels in autistic children for the AUTOPLAY thesis project.
- Executing precise video labeling and behavioral data annotation to build high-quality datasets for research and subsequent analytical models.

University Peer Tutor

Nov. 2024 – Jun. 2026

SUPSI

Lugano, Switzerland

- Mentored 15+ university students weekly in core computer science and mathematical concepts.
- Autonomously managed schedules and appointments, supporting student comprehension over the semester.

Process Automation Consultant

Dec. 2024 & Dec. 2025

Privatassistenza

Varese, Italy

- Designed and developed an optimized Excel-based scheduling system to manage daily appointments for the 2025 and 2026 calendar years.
- Implemented advanced formatting and automated logic to streamline calendar population, significantly reducing manual administrative workload for the staff.

Data Entry Clerk

Dec. 2024 – Jan. 2025

BluRigena

Angera, Italy

- Processed and validated roughly 1000+ database records within the company ERP system.
- Identified and logged data quality issues and utilized MS Excel to support and automate administrative workflows.

Delivery Driver & Cashier

Dec. 2023 – Feb. 2026

Storica Pizzeria della Stazione

Malnate, Italy

- Processed transactions and managed customer interactions, maintaining positive client relations.
- Successfully balanced demanding 12-hour weekend work schedules concurrently with full-time university studies.

IT Assistant Intern

Oct. 2022 – Nov. 2022

EasyCore

Varese, Italy

- Tracked and managed hardware assets, reorganizing warehouse operations and incoming orders.
- Configured local servers and maintained IT infrastructure reliability during the internship.

IT Security & Support Intern

Jan. 2022 – Feb. 2022

inVar

Varese, Italy

- Configured physical security equipment, including IP surveillance cameras and monitoring networks.
- Utilized and managed the WordPress platform for content, managing site updates and administration.

Sales Intern

Feb. 2021 – Mar. 2021

iMania

Azzate, Italy

- Managed direct technology sales and customer relations, resolving Level I technical inquiries.
- Operated digital sales channels, managing product listings and executing transactions on the Amazon.it marketplace.
